Human
3D printed technopolymer, metal stratified

AGGIOLIGHT

Light fixture description

Human is a concept and unique fixture, manufactured in order to show the AggioLight capability to craft make exclusive and complex 3D shapes. The object is created through 3D printing, generating a technopolymer shape. After a metal stratification process, the fixture turns into a metal shape and can be enriched by any kind of galvanic finishing.

Lighting fixture description

Reference code	C20AL-0006-D02R00
Degree of protection IP/IK	IP20
Mounting type	wall lamp
Color / finish	Opaline blown glass. Gold plated stratified metal finish on 3D printed technopolymer
Physical dimensions	h. 390 mm x p. 220 mm x l. 150 mm
Plug	wall bracket and wall plug LNT
Notes	available in different finishing, as per table at page 3.

Light source

Wattage	1 x G9 max 33W - LED 3.5W recommended
Lumen	350lm recommended
Color Temperature (K)	2700°K recommended
Voltage	220-240V or 100-120V

Control gear / Ballast / Transformer

Manufacturer	-
Type	-
